THE EXHIBITION

Colour Paper Stitch is a calm and reflective exhibition that celebrates the rich, layered landscapes of Yorkshire. Carefully stitched artworks have been created from layers of coloured paper gently sewn together to evoke the varied textures and tones of Yorkshire's ever-changing landscape. The tactile quality of the stitched layers creates depth and movement, capturing the essence of the landscape, from rolling moors and rugged coastlines to dramatic shifting skies. During the exhibition there will be demonstrations on how the paper layers are torn and stitched to create these reimagined landscapes.

With its industrial heritage, stone walls, and raw textures, the space provides the perfect contrast to the delicate, layered paper and stitch work. The echoes of Yorkshire's textile past are rooted within these walls making it an inspiring backdrop. So whether you're drawn to the artistry, the heritage of the building, or the chance to see the landscapes being created in real time, The Garage Gallery provides a setting as compelling as the exhibition itself.
